

NEIL KEENAN UPDATE | Does Anyone Really Know What Time It Is?

<http://neilkeenan.com/neil-keenan-update-does-anyone-really-know-what-time-it-is/>

March 28, 2016 | Transcript

25th of March, 2016. uh Neil Keenan here and uh... gonna get you up to date. It's been a while since I've been here. Chemtrails has been banned in Rhode Island, the smallest state in the union in the United States. My state has decided to take a stand and ban chemtrails. You can google it, you can read a lot about it right there in google. It's done. They're the first. Everybody should follow. Barium, aluminum, selenium, nano particles, whatever they're putting in the chemtrails. They're all poisonous and they're all lethal to our beings.

We don't need this anymore, any longer. We don't need to allow the one percent, if you want to call them that. We don't need to allow the UN, we don't need to allow foreign entities to decide our fate or the world's fate. We need to take our own fates into our own hands. Thank you Rhode Island, thank you Providence, thank you... to all the boys and uh... God bless ya, knew ya wouldn't let us down. Thank you.

Now... ya know... the Donald Trump situation is... is strange and I'm not gonna tell you what you probably already know. But uh... I'm gonna, rehash it for those, some who don't know. Ok? I've been gone for about a month, remember, ok. I've had this sticking in my craw, but yet I didn't want to come on here when I wasn't feeling uh... feeling my oats. (smile). Ok. I couldn't feel my oats, ha ha (smiling). Any way, uh... No matter how many votes, you give, Trump, and you better give him a lot. Cause he's the only one that can get us out of this crap that they've put us in. Ok, uh... no matter how much. How many votes you get... the Republican party is claiming if he doesn't make that magic 1,270 somethin' number or 90 something number, uh, they can decide for themselves who will be the, uh, the Republican nominee. Not the people. Doesn't matter what you want, how many votes you put in, according to them. Now, if that's the case, ya know, they should start investigating Trump's people, Iowa, Texas, especially Utah.

As I understand, Utah was a complete fraud, see and they used the George Soros machines and so on and Soros was involved again. Soros, you got your fingers in everything, it seems, those old feeble fingers and I honestly believe, that soon, your going to be grabbed by your neck, your little chicken neck, and you're gonna be dealt with properly. You can't keep running forever and you won't be protected forever. You're gonna fall into the wrong hands and when you do, say "bye-bye", say "bye-bye", cause people are fed up with your Hungarian bullshit. It's not Hungarian goulash when it involves you, it's Hungarian bullshit. Ok, you can take your boys with you, because they'll be going next. You understand? I hope you do. I'm not afraid, I don't think anybody's afraid any longer. Ok. We've gotta get the old ass out of our picture, once and for all. The world wide picture has to be deprived of one, George Soros.

There's many others too, but, during our elections he puts his nose into our elections with that... oh, man... forget about it. Just get rid of him. Do the... Get them to do the homework on the, the new tower election, the Texas election, you'll find out that Trump, more than likely, won from what I understand. I understand a little bit that went on behind the scenes, and uh, gees, I saw the Utah, Utah voting and it couldn't be when you saw that Trump had so many people in his corner there. And I mean they were even questioning if the Republicans would lose control of Utah. A Mormon state with Mitt Romney and it was neck to neck and then all of a sudden it was 70 percent to 30 percent or even less. There's something we gotta look at, we can't allow it to happen in our country.

Ok. It's the shadow government as we know, ya know, they're all coming out, you can see who they are now, they're screaming, they're shouting, they're bringing their money out, they're all, they're throwing it in for, uh, Cruz or, they even like Cruz and they hate Cruz. Right now they like him. They like him, and Cruz is not gonna do them any favors. Like Cruz is not the guy that Trump is, Cruz is still part of the Goldman Sachs, uh... English ball game, City of London ball game. Ok? And Rubio was part of the ball game as well. Of course, he was their boy. But, they have come out now, you can see them, you can see them coming out, you can see them screaming, they're putting their names in the papers even.

Uh... they can't handle Donald Trump. And ya know something, that's what we want, someone they can't handle, Donald Trump doesn't owe them a dime. And that's uh... that's, that's the key. They'll do anything they can do to prevent him. They cannot afford to lose their cash cow, understand, they're financing the western banks. The United States. We've been financing the western banks, even some Asian banks, like the Japanese. We've, that, we've been financing them for a long time, throwing money into their accounts, but we've taken out of there as well. Uh... when we want, cause Rockefeller has control over that Central Bank over in Japan for a long time. I think that stopped. Benjamin can answer that question, rightfully so, this time. Ok? As for Jokowi, we'll get to that.

So uh... ya know we pay, we've been paying their bills, basically, the western banks. So everything we, we've put in through taxes, yet ends up in the hands of the IMF. It gets filtered right through out that, right through the western hemisphere. It goes into their banks, it keeps them afloat. We've been keeping them afloat for a long time. That's why we're in debt. Our money has been going to take care of every other place, except for, except for those, such as Asia. Ok? We're done, we're done paying, we should be done paying. Get rid of them. You know where they live? They're our Senate, they're our Congress, get rid of them. Vote them out. If they, if they even smell a little, like they're turning a little rancid, get rid of them. That's what ya do in the elections.

I'm looking at the pages because it's been, like I said, going back quite a way here. Uh... Let's get to Jokowi. And uh... in the Netherlands, in Jokowi's alleged attempts to sell, oh uh... his, his potential sales of the bunker gold. There's a little Jokowi... Jokowi's representing Indonesia. Ok, before Jokowi, it was Sarkano who put this all together. It was about actually uniting Archipelago, of course was Papúa at that time was called New Guinea. Ok, it didn't belong to Indonesia, but when the war was over with and Sukarno, Sukarno won to unite the uh... the Sumatra and every other place to tie it in. He also wanted West, wanted New Guinea. He wanted New Guinea because it would unite the Archipelago and be a good thing. It turned out to be a bad thing because so many people died because of it, because of the gold. Especially the indigenous people.

Uh, you had, uh, Freeport McMoRan come in and uh, and do the agreements handling the gold and of course Rio Tinto came in with the Kissinger group and they, they worked there in old shares of Freeport McMoRan which is huge. Google them, if you wish. They're big, they're on the Arizona border and uh, that story goes on. The agreement that they had with Sukarno, uh, was a very bad agreement for Indonesia. Even though they are the largest tax payers in Indonesia, Freeport McMoRan is uh, they've abused their situation and they took advantage of the fact that Sukarno wanted the uh... New Guinea and he needed John Kennedy and he needed the United States to assist him.

So, that all ties in, so what that means is, the Dutch who are in control of that property, up until that point in time, who wouldn't, who didn't want to leave, they left, they left their cash cow behind, which happened to be the gold. They did. And uh, turned it over to the United States, which was Sukarno, to Indonesia. So now the Archipelago was complete with Freeport McMoRan and Rio Tinto running the show in West Papúa. Which you know and I know, that's the Cabal.

Now, the contract is expiring in 2020 and cannot be extended until 2019. They are requesting a twenty year extension. They want to do this now. Not later, they want to do it now, but they can't, 2019 is the earliest they can do it. And, Jokowi doing the right thing for Indonesia is looking for the best possible deal for the Indonesian government. And the best possible deal would be to go see the Dutch who actually controlled this before anybody got their hands on it. Illegally. Well,

not so illegally, Kennedy negotiated the deal for Sukarno. And uh, he did a good job for Sukarno, they got the Archipelago, but uh, the bad guys came in and handled, which was then, New Guinea. A matter of fact, two years before they even negotiated the final transaction of New Guinea, to uh, Indonesia, taking from the Dutch, they already had an agreement in place.

So, that's the quick story, that it did belong to the Dutch, the Dutch weren't any gifts to the Indonesians, that's for sure. But neither have, neither have been the Americans or anyone else who have come in there. Nobody's been a gift or anything special. They've raped in places well as they could and they've killed as many indigenous people as they can and they actually consider it a sport and it's gotta stop. I've met many indigenous people through out Jakarta and I've spoken to a few who spoke perfect English and uh... I mean it's sad, that we're still allowing it to happen today, ok? So, now... psshhh... what more can I say? Other than he's been greedy... he's the gold... he's negotiating a better deal with the Dutch. Is what he's doing. Ok? He's, he's gonna leverage his weight, his strength as being the president of Indonesia to get a better deal for the Indonesian people. Bravo Jokowi. You do what you have to do, there's no tie into the P2 lodge.

How does the P2 lodge tie into the Netherlands? Other than Queen Beatrice and the fact that she created the Bilderbergs. But, how? With Jokowi, he's going over there to see the Dutch and work out a new transaction or a new deal out. If it's better than Freeport McMoRan, then I would think the Dutch would get it. But I would think also if it's better, he'll give Freeport McMoRan a chance to come back. He's going to negotiate the best deal for his people. That's what he does, that's his job, he's a good guy, he's not selling out anybody with any assets in the bunkers, uh... In order to sell anything from the bunker, ok, and Ben should know this, first and foremost 'cause he had a, he had a trunk that he couldn't sell. Because he didn't have the right people involved to begin with, ok? Registration numbers are on that trunk, registration, those registration numbers are in the BIS. Ok? There's a depositor's name that goes in with the registration number. If it's not your name or you don't have the mandate for that package, you can't do anything. Nothing. So, forget about it. Jokowi doesn't care about those bunker assets, really, he's been offered them, on occasions. He's refused, so... what more can I say there, Jokowi is a good man.

Now, just recently, you'll probably laugh at this one, you know uh... this guy, Kamaran Abdul Rakim Faily. Similar to a Swiss-Indo kind of guy. He says he's the Royal Family's consultant. He comes up on the internet. Which you know, I really don't want to respond to this, but, you've heard it all, Red Dragons representing the Royal Families. He claims he represents the Royal Families. Royal Families, uh, for the Red Dragons were the western, the western nobility, which wasn't true, of course, as you know. It was that guy, Bo. And in this case, he says, "we're all families again". And he goes in and mentions the Dragon Families, and so, the Golden Dragons are the only ones that matter, in that

family, other than the Green Dragons, which are the Iranians who have the cash. And by the way, they're very... they handle their assets very well. And they'd like to get to use their assets as well, but the West hasn't allowed them to use them to date. See, and they've created the western financial system, which takes care of things when they did the Bretton Woods Agreement.

Ok. The IMF, the BIS, the... all these things that have been set up, all in order to steal everybody else's assets. The World Bank. What more do you need to know, I mean, ya know, this guy here goes on and on and talks about things... actually he had some interesting things, he caught my attention, I said wow, ha ha, I said wow this is pretty good and then all a sudden he talks about Bretton Woods and they've had control over the assets since Bretton Woods. Bretton Woods Agreement, my friend, is null and void. Do you understand? They can't touch those assets any longer. Those assets are frozen. You do not need to tell any elders to come to you for advice. You're nobody. You're not part of this package; you're a newbie who wants to enter the game because the other guy didn't get too far. Actually, he got far, but the name Swiss-Indo went to hell, real quick. Ok? And the committee of 300, you're saying is out now and somebody else's...

Let me tell you something, that's the West. The West doesn't own the Eastern money. The Eastern deposits are in the name, those deposits in the global accounts, that come from the East are in the names of the depositors. Ok? And the depositors just so happen to be the Golden Dragon Family. In 85% of the cases. You're out of the picture my friend. You know? Show us the papers. Show us the papers. Show us this, show us that. Stop talking. We're all tired of hearing your talk. You come out of nowhere, you make like you're something. You're nothing. You're gonna try to steal, we're not going to allow it. Do you understand? We're not going to allow it. So, anyone who would listen to this guy, Kamaran Abdul Rakim Faily, or you looked at his document; which he didn't write himself, ok? He didn't write it, somebody wrote it for him. It stinks, it smells and it doesn't belong in, it doesn't belong on the internet because its ok? Kamaran... what can I say? You're in the wrong game, at the wrong time, with the wrong people. Maybe a hundred years ago you might have been able to get away with this bullshit, today you can't.

Now, we're getting close to the end, I put it on paper what I wanted to say, not say, but just the notes, so I wouldn't forget anything. Uh... we just went through a bad time, we did, uh... You know the airport in Brussels, they blew it up, they, they bombed it, basically, and uh... Who bombed it? And that's a good question? They caught, they caught all the people in Moscow, am I right? All of them now. They claimed they caught all the people now, but it reminds me of the Boston marathon, when they got those two brothers and it turns out that the brothers weren't the killers, they aren't the ones who did the bombs, but they're dead. One killed in jail and I think the other one was killed somewhere else, I'm not too sure.

Anyway, so, this here, we're talking about the bombing, but just a couple of days before that explosion took place in the, in the Brussels airport, I mean, the RV's were set to be released in Iraq, the Iraqi Dinar, the new Dinar. It was all set to happen, it was going to be, it was going to be, it was going to be a new world basically for a lot of you people who are holding Dinars. What did they do? They blew up the airport, they blew it up to prevent that from happening. On a major scale, it's what they did when they had to pay back the... pay back the gold or have to return the gold according to the World Bank, not the World Bank, to Haiti, when they lost, when the U.S. lost their lawsuit. When they lost their lawsuit and Haiti said, return the gold to its rightful owners, they had until, what was it? November 12th to return... 9, 10... uh no, it was September 12th, to uh, to return the assets or the gold to China. And what did they do on the 11th? They blew up the World Towers, ok, the Twin Towers. They blew 'em up, that's what they did to prevent having to pay then.

This time if the Dinars are released, they lose one hell of a lot as you know and I know and they stopped it by blowing it up. And they'll do anything to prevent it from opening, apparently, because now it's been cancelled for the time being and there'll be a new date for release, but it would have been released by now. They would have been released and within a week after that would be, would come, would, would, would the uh... the historical assets would be released. Just so you know. Uh. They wouldn't be released, they'd be bought, they'd be redeemed, the historical. They'd be, not all, well, the Federal Reserve Notes and so on.

Uh, the Cabal, which has been running our government has uh, written too many, printed too many of them and they're only gonna get a small percentage of their value because they're only paper. They don't have any gold backing, it's fiat. But on the other hand, that might also be the end, the collapse of the dollar at that point in time. So, you have to understand what's happening, ok? It wasn't about the satanic holiday, and they did that because of the uh satanic holiday, the debts and ISIS and all that, it was all about the Dinar. You understand, Oscar? They made you think one thing and they did another, as always. I'm sorry it happened because so many of you people have been depending on it.

Now, Dr. Group at the Global Healing Center in Houston is by far the best natural, alternative medicine physician in the world, ok? In the world. He's that good, he's, I actually call him my personal physician in many ways because when I have a problem, I call him and tell him what it is and he sends me something and I get better. He's the one who put together those anti-poison kits for me in Indonesia, saved my life 5, 6 times. Uh, I've had friends in Canada, uh, purchase things from him because they had personal problems as well, and they picked the right item, apparently, without talking to him and uh, they're better. They're better. Dr. Group is the person that makes things better for us. He's a good guy too, on top of it all. So, Dr. Group, thank you again, it's been uh, my pleasure knowing you and we're gonna have a long, long relationship, uh, with

what we do, there's no question about that, you're a great guy. Anyway, and I will speak to you next week.

Now, let's go further, uh... the bank. As you know the accounts were stolen and so on, uh... Nothing has happened yet, nothing. Uh, the arrests have been made and I will prosecute, I will, uh, It's taken time and uh, that's all I can say, really, regarding that right now without saying too much, ok, I'm sorry I even mentioned it, uh.

The bad guys are coming forward with, with funding, too many bad guys, uh, I have to be careful, like we say, we don't want a Trojan Horse in our home, because when I do get the assets, and we do open up those accounts, we want to make sure that those accounts, without a war, can be, can be used for the good of mankind. We need to make sure, if someone, if, if the fox gets into the hen house and I'm not around, we're in big trouble. So, I have to avoid that, I mean, I've had someone walk in offering me four billion dollars. And, it's not a lot of money when you compare what's on the other side, but it's a lot of money, period. And, it's enticing, but you know, it's only money, it's only money. We'll, we'll get by that and we'll get to the things that are opened the right way with, if there's a good person out there, we'll use that, if not we'll wait for my funds to come. Ok? One way or the other we'll get it done. One way's the long way, one way's the short way. Uh, the long way's gonna entail a lot, many more problems because many more people will be trying to sneak in, slide in, and take what rightfully doesn't belong to them. Ok? It's that. We'll be fine the way I see it. I'm working my backside off, never had a backside to begin with, that big, so, its, its, I'm working it off.

Now, uh, hopefully some good guy comes forward the way I'm looking at it, we put together some packages and so on, which uh, our people will be getting out, you know, Rob, Rich, Mark, Richard, Rich, when I said Rick, I meant Rick, uh, Richard, Jeannie, Kevin, Roger, Nosco, you know, Drake, they're all my great helps, uh, great helps. That's you, by the way, Eh. All been great helps putting these things together over the last couple of years and uh, now, we're finally getting to the end of the game and we must finish it and we have to do the right things. Some people will be leaving us, I see, uh, in the near future when the funding comes, uh, they'll be, well, they've got their own families to worry about. So, they won't be assisting me in the things that we've been talking about, but most every, only one person is leaving, most everybody will be staying. The one person is made it a little more difficult for us, but uh, it doesn't matter, we'll, we'll keep it the way it should be... Happy. I'm finding everything to keep everybody happy.

Now getting, getting the other thing, the Belize Secret Weapon... is now on the move, it's on the move. It's uh, it's moving, it's moving state side and uh... what a weapon it is, wow...wow, wow, wow, unbelievable, but I can't talk too much more about that, other than wow, wow, wow. Ha ha ha ha ha! Wow! Wow! Wow! So,

you know, it's resting, that weapon is resting, getting all its rest, all the rest it needs. And uh, hopefully it'll be moved up to where it will be within my grasp in the very near future. Uh, that'll be better. It'll be better when I know where it is and that it's safely in, you know, my hands. That'll be good. So, there's not much more to say, I mean uh, I don't know when I'm leaving yet, I'm still, we worked on the packages, we were up until, ah, all night, the boys were up all night and the girls were up all night. Isabel, thank you so much for your help as well, uh, just everybody's working, everybody's making the effort to get this thing over with.

We know what we have to do, we, I have to get there, I have to have uh the funding, I'll get it myself like I said we don't get it through any other way. And uh, I'm still working to get it myself, just show you know, you know, as you know, I'm hot headed and I'm stubborn, and uh, I'll say no. Somebody said, I'm a hothead. This is called a Shillelagh, an Irish Shillelagh. This is the hardest wood in the world, and you know something, this is hard. I don't think my head's this hard. Ha (big smile) ha ha ha, I just don't think so! This thing would put a hole in my head right over here. It would put a hole in my head, forget about it. Black thistle wood, this is, it's uh, hard, hard. Damn, I'd like to have a table made out of this, it's really nice, you know, the knolls in it, boy, it could be nice. But, anyway, uh, the big Shillelagh's on its way, the big walking stick I'll use that. So, when, you know, for when I'm walking if I have a problem I don't have to go into any pockets anywhere to pull out this big thing, 'cause, you know, but if this is in my pocket, people uh, thinking something's wrong, ha ha ha ha ha, (big smile) no, I'll get the big Shillelagh, and uh, and I'll use that as a walking stick, which can turn into also a baseball bat, should I need it. Or a polo stick or anything else it can be, but I wish you all well, it's gonna get, gonna be wild and wooly, I know.

The elections are wild and wooly, what's happening to Trump is unfair, uh, the, what happened in Belgium at the airport is unfair, because you've waited long enough, its, everything's unfair. And when you tie in all the dots, it goes back to the same damn people. You know, this guy, Soros is all over the place, because he's got all the money. The Rothchild's just finance him. You do the job George, and we'll sit back and watch you. And George doesn't give a shit who he hurts. Uh, but now, I think the people should not care about who they hurt, find that guy, find him, find him, put a bounty on his head.

Yes, well, I'd like to also thank my Irish Druid, for his help, uh, he's been on the money and uh, things we knew, some, some things we didn't know. And uh Dean, thank you for yours as well. And, you know it's, we're all done, we got our help, we got people in place. We're finishing up, we're finishing.

You know we've been going through this a while now, with everyone, and uh, but, lets just get to the good bye. It's over with for now, we've all been waiting too long. It's been unfair what's happened to everybody over the past period of time and I want to say again, uh, thanks to Richard and Rick and Mark and Jeannie and Kevin and uh... oh boy, and everybody else, including, who am I forgetting?

Roger, Nosco... thank you all, and Drake. Thank you all for your help, Drake. Drake's always helping uh and the man has more knowledge than most people. He, he's forgotten more than most people will ever know, and he's smart. And Gramy J, behave yourself, I'm getting word that's your misbehaving. Uh. And everyone else, just take care and God bless you and I'll talk to you all soon, ok? I don't want this thing to click off again, just bye bye for now, talk to you later. God bless and uh, we'll see what happens. Ok? We should have it. Bye bye.
